FOR THE PURPOSE OF CONSIDERING THE FOLLOWING:

**Case No. 02-06 (Text Amendments to Neighborhood Commercial Overlay District:
Limitation For Eating Or Drinking Establishments)**

THIS CASE IS OF INTEREST TO ANCs 3C & 6B

The Zoning Commission of the District of Columbia hereby gives notice of its intent to hold an additional public hearing at the above-stated date, time and place concerning Zoning Commission Case No. 02-06.

This amendment responds to application processing concerns brought to Zoning Commission's attention by the Zoning Administrator and the Department of Consumer and Regulatory Affairs. It is intended to provide uniform procedures for determining linear street frontage usage by eating and drinking establishments in the Neighborhood Commercial Overlay Districts.

The record in this proceeding reflects that the administrative process of determining such usage has proven to be complex and burdensome for the agency. It also leaves neighborhoods at a constant tipping point between when these establishments are allowed by special exception or by right. In recognition of these circumstances, the Commission wishes to hear public testimony concerning whether it would be preferable to no longer make the status of these uses dependent upon a measurement, but, instead, designate whether the uses are permitted by right or through special exception approval with respect to each existing and proposed NC Overlay District. Testimony should not advocate for matter of right or special exception status within a particular location. The Commission will only go on to hear such recommendations if, after a decision meeting, it elects to proceed with this alternative.

Because this approach would be an alternative to the current procedures, the Commission also invites testimony with respect to the following amendments to section 1302.5 of the Zoning Regulations. Additions to the existing text of 11 DCMR § 1302.5 are shown in bold and deletions in strikethrough.

1302.5 Restaurants, fast food restaurants, delicatessens, ~~carry-outs~~, **bar or cocktail lounges**, and similar eating or drinking establishments, **occupying all or part of the ground floor level of a building**, shall be subject to the following limitations:

- (a) These uses shall occupy no more than twenty-five percent (25%) of the linear street frontage within a particular NC Overlay District, as measured along the lots that face designated roadways in the particular district;
- (b) The linear square footage of each designated roadway shall be based upon the certified and recorded plats in the Office of the Surveyor, measured to the Zone District Boundary line of each commercial zone district within the overlay;
- (c) The total linear street frontage for eating or drinking establishments shall be based on the existing records of Certificates of Occupancy for such uses, by address, verified through field observations;
- (d) If an eating or drinking establishment occupies all or part of the ground floor level of a corner lot facing two or more designated roadways, the linear street frontage for each designated roadway shall be included for purposes of determining compliance with § 1302.5(a);
- (e) An eating or drinking establishment that occupies the same premises as a gas station, grocery store, billiard parlor, or other non-eating or drinking establishment shall be subject to the twenty-five percent (25%) linear street frontage limitation within a particular NC Overlay District if the eating or drinking establishment use is reflected upon or is required to be reflected upon the Certificate of Occupancy and the eating or drinking use occupies all or part of the ground floor level;
- (f) The linear street footage of a property shall be excluded from the measurement of eating and drinking establishment uses if the property has not been used as an eating or drinking establishment for three (3) years; or until a certification of occupancy is issued for a different use, whichever occurs first;
- (g) Notwithstanding the foregoing, the linear street footage of a property included in the measurement of eating and drinking establishments on [the effective date of this amendment], which is not being used for that or any other purpose on that date, shall continue to be included in the measurement for ____ year(s) after [the effective date of this amendment] or until a certification of occupancy is issued for a different use, whichever occurs first;

- (h) If the measurement of linear street frontage occupied by eating and drinking establishments is not updated after a one-year period, it shall be assumed that the linear street frontage occupied by eating and drinking establishments exceeds the applicable percentage limitation, until a subsequent update indicates otherwise;
- (i) In the absence of evidence to the contrary, the Zoning Administrator may assume that an eating or drinking establishment use was discontinued on the date on which the Department of Consumer and Regulatory Affairs first observed the discontinued use;
- (j) An applicant for a certificate of occupancy for an eating or drinking establishment who wishes to have the property's street frontage included in the measurement of such uses shall demonstrate, to the satisfaction of the Zoning Administrator, that the property has been used as a lawful eating or drinking establishment at some time during the three-year period preceding the date of the application;
- (k) Whenever the measured linear street frontage devoted to existing eating or drinking establishment uses equals or exceeds the applicable percentage limitation, no new certificates of occupancy may be issued for: (i) new eating or drinking establishments that would occupy any or all of the street frontage of the ground floor level of a building; or (ii) the expansion of an existing eating or drinking establishment that occupies such space, unless the square footage to be occupied by the new or expanded use is already included with the measurement of such uses;
- (l) Whenever existing linear street frontage devoted to eating or drinking establishment use is less than the applicable percentage, no certificate of occupancy shall be issued for a proposed eating or drinking establishment use if the addition of the total linear street frontage to be occupied would cause the applicable percentage limitation for the NC Overlay District to be exceeded; and
- (m) Except for a fast food restaurant, such uses may be applied to fulfill the requirements of § 1302.4; provided, that when such uses are so applied, they shall remain subject to the provisions of paragraph (a)-(l) of this subsection.

The public hearing on this case will be conducted in accordance with the provisions of Section 3021 of the District of Columbia Municipal Regulations, Title 11, Zoning. Pursuant to that section, the Commission will impose time limits on testimony presented to it at the public hearing.

FOR THE PURPOSE OF CONSIDERING THE FOLLOWING:

Case No. 04-35 (The Salvation Army - Consolidated Planned Unit Development)

THIS CASE IS OF INTEREST TO ANC 8A

The Salvation Army (the "Applicant") requests approval for a consolidated Planned Unit Development ("PUD"). The subject property is located at 2302-2320 Martin Luther King, Jr., Avenue, S.E. (Square 5805, Lots 222, 223, 224, 225, 226, and a portion of Lot 227). In accordance with Chapter 24 of the District of Columbia Zoning Regulations, this case is being heard and decided by the Zoning Commission.

The property that is the subject of this application consists of approximately 19,280 square feet of land area, has frontage along Martin Luther King, Jr. Avenue, S.E. and Morris Road, S.E. and is currently occupied by vacant buildings. The property is located in the C-2-A Zone District.

Consistent with the PUD guidelines for the C-2-A District, the project will include a total of 46,988 square feet of gross floor area, will have a total FAR of 2.45, will be approximately 50 feet in height, and will occupy 61% of the Subject Property. The project will include 4,100 square feet of retail space, community program space, a child care and family development center, worship space, job training space and a health and wellness center. The project will also include parking below grade for 34 automobiles that will be accessed from Morris Road, S.E. with a pedestrian entrance on Martin Luther King, Jr., Avenue, S.E. The Applicant will construct a sidewalk on Morris Road as well as landscape both frontages to contribute to a vibrant streetscape for this important corner of Anacostia, while the building's rich palette of materials, including brick, glass and metal will elevate the level of finish in the neighborhood streetscape.

The Applicant contends that the proposed building and use is not inconsistent with the *Comprehensive Plan for the National Capital*. The architects for the Applicant are the Smith Group, Inc.; the land use counsel is Pillsbury Winthrop Shaw Pittman, LLP.
