## METROPOLITAN POLICE DEPARTMENT

**NOTICE OF DEPLOYMENT OF CLOSED CIRCUIT TELEVISION CAMERAS  
APRIL 11 - 13, 2003 DURING THE INTERNATIONAL MONETARY FUND AND  
WORLD BANK GROUP MEETINGS**

The Chief of the Metropolitan Police Department, pursuant to the public notice requirements established in 24 D.C. Municipal Regulations (DCMR) § 2502.1 *et seq.*, hereby gives notice that Closed Circuit Television (CCTV) cameras were deployed to support public safety operations during the International Monetary Fund and World Bank Group meetings and related anti-globalization and anti-war demonstrations from April 11 through April 13, 2003.

The temporary cameras were deployed generally along the permitted march routes for Saturday's anti-war demonstration organized by International A.N.S.W.E.R., and Sunday's anti-globalization demonstration organized by the Latin America Solidarity Coalition. The deployment lasted from the evening of Friday, April 11, through Sunday, April 13, 2003. Specifically, cameras were deployed in the vicinity of the following areas:

- 16<sup>th</sup> and Euclid Streets, NW (Malcolm X Park)
- 14<sup>th</sup> and U Streets, NW
- 13<sup>th</sup> Street and New York Avenue, NW
- Vermont Avenue and H Street, NW (Lafayette Park)
- 18<sup>th</sup> and I Streets, NW
- 19<sup>th</sup> and H Streets, NW

In addition, the MPD relocated two of the temporary CCTV cameras it deployed after March 17, 2003, from locations generally focusing on Potomac River bridges to the following areas. These cameras will remain activated until further notice:

- Farragut Square, NW
- McPherson Square, NW

These temporary cameras are in addition to the 14 cameras that are part of the MPD's current CCTV system. These 14 cameras have been activated since March 17, 2003, when the national threat level was raised from Elevated (Yellow) to High (Orange).

Pursuant to 24 DCMR §2502.1, the Metropolitan Police Department is required to provide public notice of plans to deploy CCTV cameras prior to such deployment, except under exigent circumstances. In this case, the timing of the application for and approval of the parade permit prevented the Department from providing public notice in the *D.C. Register* in advance of the deployment. § 2502.5 requires the Chief of Police to provide post-deployment public notification of any camera deployed pursuant to exigent circumstances. The public may submit comments in writing regarding a particular deployment, or the CCTV system in general, to the Chief of Police, Metropolitan Police Department, 300 Indiana Avenue, NW, Room 5080, Washington, DC, 20001, or via e-mail at [chief@mpdc.org](mailto:chief@mpdc.org).

The Metropolitan Police Department's CCTV system is a secure, wireless network of 14 cameras owned and operated by the MPD. These cameras are mounted on various buildings primarily in the downtown DC area. They focus on public spaces around the National Mall, the US Capitol, the White House, Union Station and other critical installations, as well as major arteries and highways that pass through downtown DC. Under DC regulations, additional cameras can be added to the network on a temporary or permanent basis following a period of public comment. As noted above, during exigent circumstances, additional cameras can be deployed on a temporary basis without advance public notice, but with a post-deployment notification to the public.

The CCTV system is not a round-the-clock video monitoring operation. The system is activated only during major events in the District (such as large-scale demonstrations, the Fourth of July celebration, Presidential Inaugurations, etc.) or during periods of heightened alert for terrorism. CCTV camera feeds are displayed in the MPD's Joint Operations Command Center (JOCC), a secure facility located on the 5th Floor of police headquarters. The JOCC is operated by the MPD, but may include staff from other federal, regional, state and local public safety agencies participating in joint operations.

The MPD's use of CCTV is designed to ensure the protection of personal privacy rights. The CCTV network has no audio capability; it provides video images of public spaces only. The cameras can pan at 360 degrees and tilt at 180 degrees. The cameras do have the capability to zoom in on a particular location, but are used primarily to monitor wide areas of public space, not the individuals within that space. The CCTV system does not use face-recognition or any other biometric technology. Both DC regulations and internal MPD policy expressly prohibit the arbitrary monitoring of individuals or monitoring of individuals based on race, gender or other factors. Regulations and policies also prohibit the use of the CCTV system for the purpose of infringing on First Amendment rights.

Additional information about the CCTV network, including the locations of the 14 permanent cameras, can be found on the MPD website: <http://mpdc.dc.gov/info/comm/CCTV.shtm>.
